Logo Styles

Primary Full Tone Colour

This is the primary logo to use. This is your main go-to version of the logo, except for limited exceptions below.

Full Tone Greyscale

The greyscale version can be used for higher quality, but still B/W print reproduction, where a finer halftone screen is used.

Solid Black

The solid black version is only to be used for Fax, and some forms of black/white commercial printing applications, such as local newspapers etc, where course halftones screens are used.

Social Media

There 2 versions of the Social Media profile image. The 1st one can be used for all round & square cornered profile destinations, such as: Twitter, Facebook etc, and is placed within a container.

The 2nd one is for circular profile destinations, such as: Google+, Instagram etc and as such does not come inside a container.

Logo Best Practices

To ensure your brand logo is not the victim of aesthetic vandalism, the general rule to abide by is: do not change, do not use the icon by itself (except for social media icons) and do not alter or modify any part of the logo.

Some examples of logo misuse are shown below.

Do Not: Logomark

Do not resize or change the position of the logomark.

Do Not: Fonts

Do not use any other font, no matter how close it might look to DIN Regular.

Do Not: Sizing

Do not use squish or squash the logo. Any resizing must be in proportion.

Do Not: Colour

Do not change the colours even if they look similar. Use the official colour specifications detailed in these guidelines
